Take it from an Expert ...

In each Expert product, you'll find something increasingly uncommon these days: VALUE. Nowhere else will you find such an impressive assortment of powerful, yet easy-to-use applications for DOS and Windows, at value prices ranging from $14.95 to $49.95

Expert Software programs are popular in retail stores and often appear in the "Top Ten" best seller lists in stores.

We're introducing four great new products as well as feature-packed updates to several of our best-selling favorites:

Diet Expert is your personal nutrition and fitness consultant.

Expert Astrologer is a program that plots *and interprets* your astrological chart and horoscope.

We're very pleased to announce our premier **Gold Edition** line of software that sets a new standard for top-quality, value-priced programs:

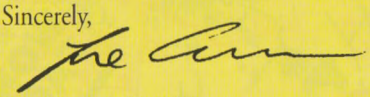
Gold Edition Home Design is ideal for the Do-it-yourselfer, from simple furniture arrangement to an ambitious design for your dream home!

Gold Edition Home Design for Windows has all the features of Gold Edition Home Design with the added ease of Drag 'n Drop!

If you are just starting in the world of computers, you might try The Ten Best (page 27), which provides many basic productivity tools in one box for only $19.95. And that's just the beginning – there are 33 other programs in the Expert line, all with Expert value and Expert quality built in!

We will continue to work hard to bring you the best software at the lowest prices. Enjoy your high-quality Expert Software, and thank you for your vote of confidence as a loyal customer!

Sincerely,



Sue Currier, President

Diet EXPERT NEW!

Your Personal Nutrition and Fitness Consultant

Diet
EXPERT
PLAN YOUR FITNESS AND NUTRITION PROGRAM!
Plan menus and meals to meet your diet goals.
Includes nutritional information for over 2300 foods.
Built in reports on recipe analysis, weight change, and more.
Detailed analysis of Protein, Carbohydrates, Fat, Sodium, Cholesterol.
Activity and exercise analysis for your age, sex, weight and frame size.
IBM/TANDY
5¼" and 3½" disks included
PUBLISHER'S EXPERT SOFTWARE CHOICE

Create your custom nutrition and fitness plan: Diet Expert analyzes your current diet for calories and nutrients, helps you schedule weight loss according to the target date you choose, and tracks your fitness activity. Meal by meal, you'll plan your diet, weigh in when you want to, and the Diet Expert will chart your progress. All optimized according to your age, sex, weight and build!

Diet Expert contains the latest information on over 2300 foods and 30 nutrients. Simply choose the foods for a given meal from a list, and you'll see a complete nutrition analysis. Substitute less fatty or filling ingredients to fine-tune and reduce your calories. View nutrients by meal – even view the contents of an entire meal in the same familiar format as the label on the food products you buy at the supermarket.

Thirteen different reports to view on screen or print, including Weight Planning and Progress Chart, Nutrient Analysis as Percentage of RDA, and Fitness Activity Profile. View on screen graphics that plot your weight loss goals by date, or your fitness activity level.

Diet Analysis Chart

Features:

- Analysis of calories, protein, carbohydrate, fat, vitamin, mineral, amino acid and trace elements for over 2300 foods.
- Plan meals and menu cycles for up to 365 days. Save your diet to file.
- Contains details for ready-to-cook ingredients, brand name prepared foods, fast food dishes, ethnic foods and basic ingredients.
- Find any food quickly and easily, or add your custom ingredients. You're limited only by disk space.
- Track cholesterol and saturated fat content of your diet.
- Tips for overcoming excesses and nutrient deficiencies in your current diet.
- Plan the optimum exercise program for your age, sex, weight and frame.
- Track calorie expenditures for specific activities and exercises.
- Easy to use push-button interface.

System Requirements: MS or PC-DOS 3.3 or higher, 640K RAM, monochrome or color adapter, hard disk drive. Supports Epson or IBM ProPrinter compatible dot matrix printers, or HP LaserJet series II compatible laser printers. Microsoft compatible mouse optional.

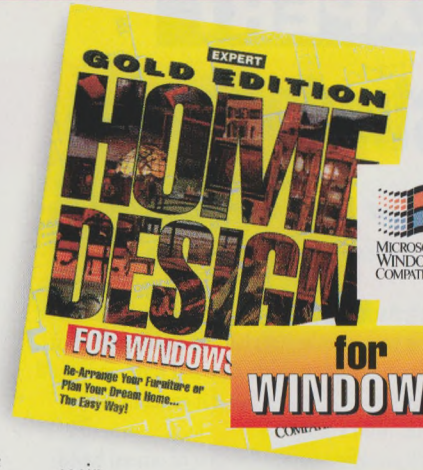
NEW! NEW! NEW! NEW! NEW! NEW! NEW! NEW! NEW! NEW! NEW! NEW! NEW! NEW!

for DOS
(DOS 6.0 COMPATIBLE)

GOLD EDITION HOME DESIGN™



MICROSOFT WINDOWS COMPATIBLE

for WINDOWS™

DOS

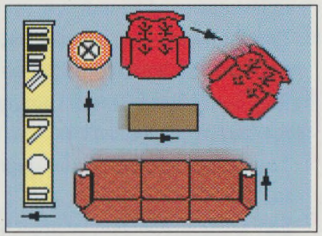
- Advanced memory management allows less powerful machines to use memory beyond 640K – without requiring Microsoft® Windows™!
- Three special scaling options for plans up to 25 ft, 50 ft, 100 ft across give you perfect support for every job.

All The Tools You Need For Any Size Home Project.

Be your own designer and decorator with the Home Design Gold Editions for DOS and Windows™. Create professional home plans - there are even 25 editable plans from Homestyles Publishing to get you started.

Create your furniture plan, then try different layouts easily. And the Expert Decorating and Design Guides are full of advice and money saving tips.

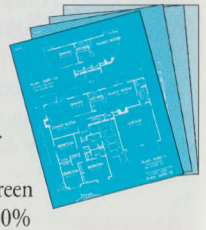
Unlike hard to use CAD (Computer Aided Design) programs, Home Design Gold Editions are as easy to use as a simple drawing program.



Start With a Plan: Yours or Ours...

To get you started, we give you 25 popular home plans you can edit right on screen. If you want, you can even order the actual blueprints.

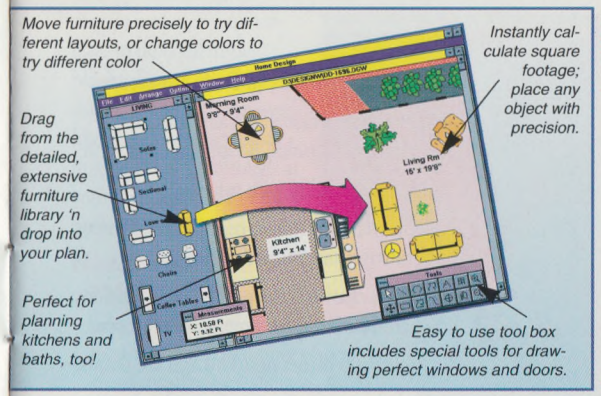
Or design one yourself with the easy-to-use drawing tools including special tools for doors and windows.



- Automatically measure as you draw in feet or meters. Easily calculate area.
- Scaling controls and on-screen grids make it easy to be 100% accurate.
- Zoom in, zoom out to see details or the long view.
- The Guides provide basic planning details such as how much space to allow for traffic paths around the sofa or standard appliance sizes.

Rearrange Your Furniture

- Move objects from the furniture library into your plan. They're automatically scaled to the right dimension, whether you're planning a single room or an entire home.
- Over 125 realistic pieces: sofas, beds, kitchen appliances, bath fixtures, tables, bookcases, TVs, and home office furniture. Even specialized objects like saunas and electrical outlets.
- Create your own furniture library. Draw your objects (or edit ours), then save them for use again and again.
- Customize the furniture to match your color scheme.
- Create, edit, re-size, change color or fill patterns for any object, then save it in your custom library.



Move furniture precisely to try different layouts, or change colors to try different color
Instantly calculate square footage; place any object with precision.
Drag from the detailed, extensive furniture library 'n drop into your plan.
Perfect for planning kitchens and baths, too!
Easy to use tool box includes special tools for drawing perfect windows and doors.

Add the Final Touches

- Room by room planning advice, from details such as the standard bathtub size to broad guidelines for gauging your family's space needs.
- Practical color decorating tips that will make your job easier from start to finish.
- Control your building and decorating costs with our special Costing Program. Even figures adjustable rate mortgages!
- Scan your company logo and place it in the plan.

WINDOWS

Drag 'n Drop power makes home design easier than ever!

- Drag objects from the furniture library ; drop them into your plan. They're automatically scaled to the right dimension, whether you're planning a single room or an entire home.

Work with Other Programs via OLE

- You can easily write a letter in your word processor and include your Home Design floor plan in it. You can change the floorplan as you type the letter! There's no need to exit the word processor.

DOS System Requirements: You MUST have a VGA graphics adapter to run this program. Hard drive., 640K RAM, MS or PC-DOS 3.0 or higher. Additional XMS (as provided by DOS 5.0 HIMEM.SYS) or EMS memory recommended. Microsoft compatible mouse recommended but not required. Epson or compatible dot matrix or HP series II LaserJet printers, and HP DeskJet, DeskJet C and PaintJet printers.

WINDOWS System Requirements: You MUST have Microsoft® Windows™ 3.0 or 3.1 to run this program. Hard drive, mouse, Hercules, EGA, VGA or higher display adapter, printer installed under MS Windows™.

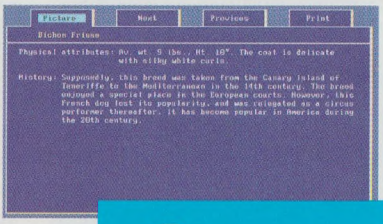
EXPERT Pet Care™

The Best Way to Care for Your Dog or Cat

Expert Pet Care is your complete guide to your pet's health and upkeep. Developed by a practicing veterinarian, Expert Pet Care offers valuable information and advice on nutrition, exercise, emergency care, behavioral problems, training and medication. It also includes special tips on training, diet and grooming, plus produces pedigree and descendants charts.

You can learn about the various breeds of dogs and cats, and even view pictures of them! Expert Pet Care contains information on over 150 different breeds. You'll learn about each breed's physical attributes, history, and special care considerations.

Expert Pet Care provides vital emergency health care do's and don'ts which may literally save your pet's life. You can easily create a medical history for your pet. Expert Pet Care tracks information such as vaccinations, allergies, surgery and more. All you have to do is fill in the blanks. Expert Pet Care is simple to use - it's arranged like a stack of index cards that you can flip through at your own pace, and in the order you like!



Picture

Print
Bichon Frisse
Physical attributes: Av. wt. 5 lbs., Ht. 10". The coat is delicate with silky white curls.
History: Supposedly, this breed was taken from the Canary Island of Teneriffe to the Mediterranean in the 14th century. The breed enjoyed a special place in the European courts. However, this French dog lost its popularity, and was relegated as a circus performer thereafter. It has become popular in America during the 20th century.

Health and Medical Information

- Generates a complete health record for an unlimited number of pets: vaccinations, illnesses, allergies, veterinarian visits and more.
- Health maintenance topics include nutrition, exercise, prenatal/postnatal care, hygiene, bathing, behavior and grooming.
- Emergency health care tips include accidental poison ingestion, car accidents and more.
- Special care tips for newborn, adolescent, adult and senior pets.
- Veterinarian's advice on how best to feed your dog or cat.
  - Use of shampoos, sprays, dips and collars.
  - Comprehensive medical glossary.

Breed and Pedigree Information

- Print or view pedigree charts going back five generations.
- View or print comprehensive descendants charts - up to ten generations!

$14.95

System Requirements: MS or PC DOS 3.0 or higher, 640K RAM. To view pictures requires EGA or VGA graphics adapter. Hard drive. Printers: Epson, IBM ProPrinter, HP LaserJet series II or emulations.

EXPERT Home Design™

Plan everything from a room to a house right on your PC.

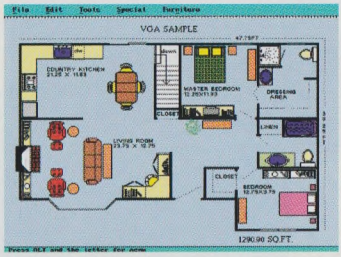
EXPERT
Home Design™
Includes Kitchens & Baths!
CREATE A PROFESSIONAL ROOM OR HOUSE PLAN THE EASY WAY
• Pre-drawn library of furniture shapes.
• Use mouse or cursor.
• Displays lengths as you draw.
• Choose large or small scale (34 or 68 ft.).
• Print layout or save to a standard file.
IBM/TANDY
5¼" and 3½" disks included
PUBLISHER'S EXPERT CHOICE

Home design with an expert helper

Expert Home Design is the DOS floor plan program that lets you plan a room or house to scale and populate it expertly with furniture. Try different furniture layouts. Use the 200+ piece furniture library to map out just where you want everything to go. The library includes special pieces such as pianos and billiard tables, as well as standard appliances and furniture. Expert Home Design calculates square footage and prints in regular or blueprint mode. Imagine the time you'll save planning exactly how you want your rooms and whole house to look instead of doing it haphazardly.

So easy to use

With Expert Home Design, it's easy to draw your floor plan to your exact dimensions, using either a mouse or keyboard. Every line or box you draw will be measured on-screen as you draw it. Choose large or small scale draw mode, then draw your interior walls, add furniture from the furniture library. You'll quickly find new ways to lay out your rooms in interesting ways. You can even add text to your plan.



Calculate your building or remodeling costs

Expert Home Design will also help you calculate your building costs. With a few figures you can get from your local realtor or builder, you'll be able to calculate your total building and mortgage costs within a fairly accurate range. Combine this with the powerful design capabilities of Expert Home Design and you've got an unbeatable package.

Expert Home Design's features:

- Large (64ft.) or small (32ft.) scale settings.
- Draws lines, extra thick lines, dotted lines, or boxes to show room boundaries.
- Automatically shows length of the line as you draw.
- Calculates square footage once you've created the plan.
- 200+ piece furniture library
- Add text to your drawings.
- Eraser tool provided to make corrections.
- Tags room names and free form text and prints them on separate pages.
- Separate program module calculates building and mortgage costs.
- Print on standard graphic printers.
- Save layout to standard .PCX file for use in a paint program.

$14.95

System Requirements: DOS 3.0 or higher, 640K RAM, Hercules, CGA, EGA or VGA adapter. Supports HP LaserJet II or compatible printers, Epson dot matrix or compatible printers.

To Order call: 1-800-759-2562 Express Fax: (305) 443-0786

EXPERT Landscape™

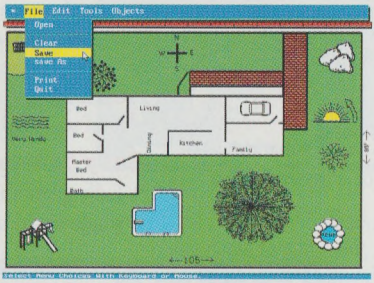
Create professional looking landscaping plans, right on your PC.

Landscaping With the Expert

Now you can enjoy designing your backyard, patio, the grounds around your office, even your apartment balcony on your PC. Expert Landscape is the landscaping program that allows you to lay out property lines, measuring as you go to match your dimensions. Place elements from its 200+ piece library: shrubs, trees, garden furniture, pools, fences, symbols, even house outlines. Move the elements on screen to test the way that different layouts will look. Now you can fully plan your outdoors and save some shovel work!

Create Landscaping Plans Easily

Lay out your property lines using mouse or keyboard, measuring to match your true dimensions. Then place elements from Expert Landscape's 200+ piece library: shrubs, trees, garden furniture, pools, fences, symbols, even house outlines. Move the elements on screen to test how different layouts look. Scale them to see how a bigger pool would look!



Customize Your Plan

Use Expert Landscape's drawing tools to customize your plan. Want to make that pool in the shape of a heart? Go ahead. Enhance the layout with color and patterns. Freehand drawing lets you add contour lines. Or make a driveway, and fill it with a brick pattern. Even add text to the layout to notate your plans. With Expert Landscape, designing a plan for your exteriors has never been easier.

Includes "An Introduction to Landscaping."

- 200 piece library includes outlines for shrubs, trees, plants, ornaments, accessories, fences and houses.
- Displays length of property lines as you mark them.
- Full featured drawing tools include lines, boxes, circles.
- Add text to label your plan.
- Includes "Expert Plant Encyclopedia."
- Prints to standard graphics printers.

$14.95

System Requirements: 640K RAM, MS or PC-DOS 3.0 or higher, CGA, EGA, VGA or Hercules display adapter. Mouse suggested but not required. Supports Epson dot matrix and HP LaserJet series II compatibles. Hard disk or 720 K, 1.2M, 1.44M floppy drive required.

To Order call: 1-800-759-2562 Express Fax: (305) 443-0786

EXPERT
Travel Planner™

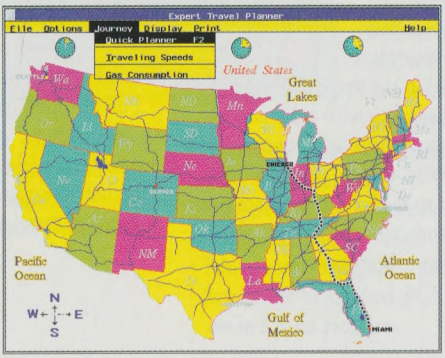
Plan Your Trip With a Computerized Road Atlas.

Now you can save time and money, and have fun doing it on your PC. Expert Travel Planner is the ideal trip planning program. Its fully graphical interface lets you choose your destinations with either mouse or keyboard. All your information and controls appear in easy to understand windows and buttons. You can even display a series of roads on screen and have the program identify your route in a special highlight color.

Simply choose the starting point and destination. Expert Travel Planner will find the best route, show you the map, and print a detailed itinerary with driving instructions, road names, directions for each leg of the trip. Expert Travel Planner also has a built in database of tourist information, hotel and car rental phone numbers and more. The easy to use graphical interface makes thumbing through the travel information fun! With Expert Travel Planner, getting there is half the fun!

Finding Your Way

- Simply select your starting and destination points by typing the cities or selecting from a list.
- Over 2000 strategically placed cities and junctions insure you'll find the best route.
- Optionally set preferences for speed, shortest and quickest routes.
- View your route on screen.
- Prints detailed travel directions, segment by segment.
- Prints maps with highways.



Travel Information On-Line

- Enjoy browsing through interesting information for over 1000 cities. Includes sights to see, activities and more.
- Useful phone numbers for hotels and car rentals, local tourism boards and more.

Easy to Use and Fun

- Fully graphical; information appears in scrolling windows, with push-button controls and pull-down menus.
- Wealth of tourism information makes it ideal for armchair travelers.

$14.95

System Requirements: MS or PC DOS 3.0 or higher, 640K RAM. VGA graphics adapter. Hard drive. Printers: Epson, IBM ProPrinter, HP LaserJet series II or compatible. Microsoft compatible mouse on COM1 optional.

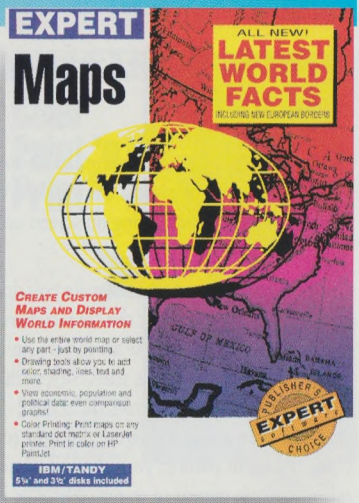
EXPERT Maps™

NEW VERSION WITH
WORLD FACTS



EXPERT
Maps
ALL NEW!
LATEST WORLD FACTS
INCLUDING NEW EUROPEAN BORDERS
CREATE CUSTOM MAPS AND DISPLAY WORLD INFORMATION
• Use the entire world map or select any part - just by pointing.
• Drawing tools allow you to add color, shading, lines, text and more.
• View economic, population and political data: even comparison graphs!
• Color Printing: Print maps on any standard dot matrix or LaserJet printer. Print in color on HP PaintJet
IBM/TANDY
5¼" and 3½" disks included
PUBLISHER'S EXPERT SOFTWARE CHOICE

Display any part of the world.

Create custom maps and display world information.

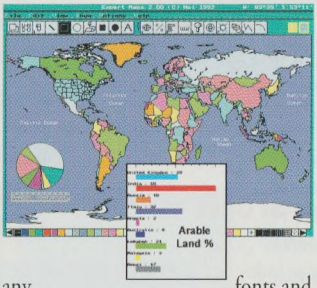
The world is yours to conquer with Expert Maps. Create and print customized maps for business, school or fun. Using the keyboard or a mouse, you can display and part of the world on your screen.

Add impact to classwork, office work or homework with Expert Maps. Customize your map with sophisticated editing tools. Save your customized map to a standard .PCX file for import to your word processor or print the map directly to your printer.

Zoom in on special areas

Expert Maps' built-in directory of U.S. state capitals, major U.S cities and foreign capitals allows you to zoom in to their specific location on your map and to easily get distances between cities. If you live in a town not listed, you can locate it on the map yourself and get the distance from your town to any other city.

Expert Maps is designed for flexibility and lets you make a map to suit your needs. Since Expert Maps is object oriented, you can personalize your map with the editing tools and keep your changes -- even if you change map sizes. With easy pull-down menus and simple pointing operation, Expert Maps makes drawing any world map a breeze.



Tons of important new information

Choose any area of the world for display by simply pointing with Expert Maps; the program will create a new map for that area based on the information in its database. The map database contains all country borders, U.S. state borders, major rivers, and many major U.S. cities and foreign capitals (200 cities in all). Plus, you'll find economic, population and political data - even comparison graphs! The database allows fast map re-drawing when changing an area for display and for accurate detail down to the state level.

Sophisticated editing tools

Expert Maps gives you sophisticated control over the design of your map. Color or shade up to the border of a selected area. Add text with a choice of fonts and sizes. Add arrows, lines, boxes, circles and more. Lines may be solid, dotted, dashed, and of varying thicknesses. You can cut and paste map areas or objects, use the undo command, and even add one of nine fill patterns. With Expert Maps, customizing your map of the world is easy.

- Choose any area of the world by pointing.
- Zoom in to specific areas.
- Loads of detail including U.S. state and foreign capitals
- Cut, paste and undo commands.
- Pull-down menus work with mouse or keyboard.

$14.95

System Requirements: DOS 3.0 or higher; 640K RAM, Hercules, CGA, EGA, VGA, monochrome or color. Mouse suggested but not required. Epson dot matrix and HP LaserJet or compatible printers.

To Order call: 1-800-759-2562 Express Fax: (305) 443-0786

EXPERT Animator™

Create Stunning Computer Animation!

Now anyone can create computer animation with Expert Animator. With just a few mouse clicks, anyone can choreograph exciting on screen action.

Smart Characters

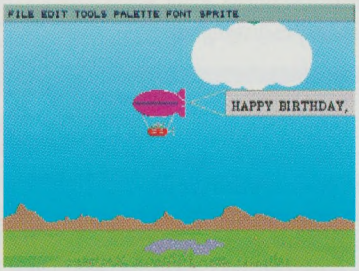
Most animation programs make you draw a separate picture for each point the character touches as it moves across the screen. With Expert Animator, just create your character once, then click with your mouse to show its path across the screen! Since the character is smart, it will figure out how to get there! Optionally edit parts of your character into separate cels to make it appear to wiggle, dance or jump its way along its path!

Your Own Sound and Light Show

Add sound to your animation. Select one of the sound effects included in the program and attach it to a character. When the character moves, you'll hear the sound, even if you don't have a sound card! If you do have a sound card, you can add music and create new sound effects.

Up to 12 Characters at Once

Define up to 12 characters on screen at once. All can move independently, create shadows, and pass in front or behind one another. The special Teach mode lets you give each character individual instructions. You can tell one character to wait for another before moving, or move it on and off the screen, then trigger another character to move and more. The combinations are endless!



Use Your Favorite Graphics File

Use your favorite .GIF or .PCX file as a background for your animations or cut part of your graphic out to serve as a new character. You can draw, paint and animate your own designs. Even if you're not the greatest artist in the world, Expert Animator will make it seem like you're the greatest animator!

Easy-to-Use and Fun!

- High quality animation without repetitious cel by cel drawing.
- Up to 12 live-action characters move independently.
- Point with mouse to direct animation.
- Supports sound cards or PC speaker.

$14.95

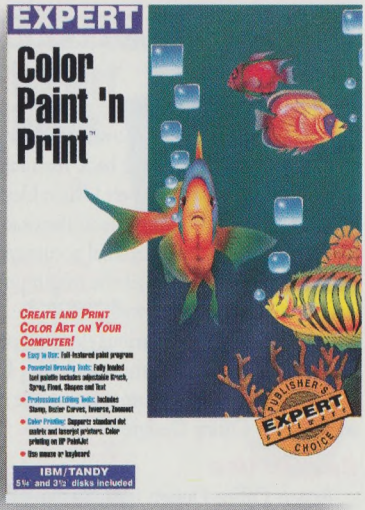
System Requirements: YOU MUST HAVE A MICROSOFT COMPATIBLE MOUSE AND A VGA OR MCGA GRAPHICS DISPLAY ADAPTER TO USE THIS PROGRAM. MS or PC-DOS 3.0 or higher, 640K RAM, hard disk. Sound card not required but program supports Brown-Wagh SoundBlaster™ or SoundBlaster Pro™ sound cards.

To Order call: 1-800-759-2562 Express Fax: (305) 443-0786

EXPERT

Color Paint 'n Print™

You can paint like a pro using your PC. Sophisticated output from a program so easy to use.



Create professional art!

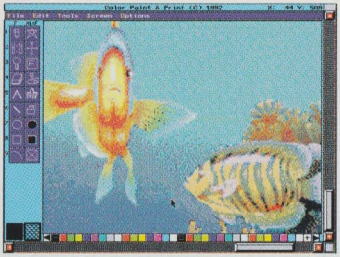
Expert Color Paint 'n Print is the sophisticated, easy paint program with a bonus: it prints in color! With its full assortment of drawing tools, it allows you to create stunning full-color art. Plus, all the icon-oriented drawing tools, colors and patterns can be selected with either mouse or keyboard. If you have an HP PaintJet or compatible color printer, you can print in color; otherwise, the program substitutes variable shading on standard black and white graphics printers, without losing the professional artistic touch!

Professional strength editing tools

Expert Color Paint 'n Print includes professional strength editing tools such as Stamp, Bezier Curves and Zoomout. Expert Color Paint 'n Print allows the user to create first class color ads, presentations, announcements, cards and so much more!

Standard Paint Tools Include:

- **Paintbrush:** allows you to customize brush size and shape; choose solid or filled.
- **Pencil:** for freehand drawing.
- **Spray:** spray paint with color and/or pattern.
- **Flood:** fill an area with color and/or pattern.
- **Lines:** draw straight lines, horizontal, vertical or angled.
- **Shape tools:** rectangles, circles, polygons; fill with color/patterns.
- **Text:** add text in your choice of four fonts in selectable sizes and adjustable vertical spacing.



Special Paint Tools Include:

- **Stamp:** copy a part of the drawing and then paste repeatedly onto the screen as a background.
- **Bezier Curves:** fully adjustable perfect curves.
- **Magnify/Zoomout/ Full Screen:** view your picture pixel by pixel for detailed editing, zoomout to view at 1/4 size, or view at full screen size.
- **Inverse, Transparent and more:** copy part of your drawing and fully manipulate its pasted image so the copy may have its colors inverted, appear transparent or change its background to match a different background color.
- Over 25 clip art samples.
- Print all or selected parts of the picture.
- Cut, Copy and Paste functions.
- 40 fill patterns, selectable by mouse or keyboard.

$14.95

System Requirements: MS or PC DOS 3.0 or higher, 512K RAM. Requires CGA, EGA, VGA or Hercules graphics display adapter. Hercules in monochrome. Supports Epson dot matrix, HP LaserJet series II, HP PaintJet or compatible printers. Color only on PaintJet printers and compatibles. Microsoft compatible mouse on COM1 optional.

To Order call: 1-800-759-2562 Express Fax: (305) 443-0786

EXPERT Office Design™

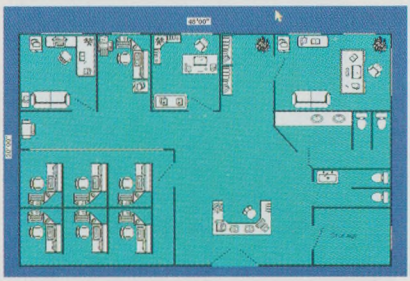
You're the Architect

Plan your office the simple way — on your computer screen! You'll know which way works best without breaking your back rearranging bulky office furniture. With Expert Office Design you create precision office layouts to the exact specifications you need, with decimal accuracy. Start with a blank screen and set the origin point for any shaped room. Draw the walls, mark the doorways and go to town trying various designs, placing elements from the 150+ furniture library. From the reception area to bathrooms, you're the architect with Expert Office Design!

EXPERT
Office Design
Great for Home Offices!
DESIGN YOUR OWN OFFICE SPACE!
• Custom design your office to maximize space and optimize working conditions.
• Use the 150+ piece library filled with detailed furniture and equipment, or create your own with special drawing tools.
• Measure in feet or meters as you draw. Calculate square footage.
• Print in blueprint style if you want.
• Color and Patterns on screen make your layouts easy and attractive.
IBM/TANDY
5¼" and 3½" disks included
PUBLISHER'S EXPERT CHOICE

Easy to Use

Expert Office Design is the design program for people who don't have time to learn a complicated CAD architectural program. Draw rooms and decorate them with the detailed furniture icons from the extensive library. Then print out your custom designed office in regular or blueprint mode. The program measures rooms and furniture as you go, providing you with finished layouts contractors and decorators can work from.



General Features

- 150+ piece furniture library.
- Easily move furniture on screen.
- Standard drawing tools and special drawing tools for walls and windows.
- Use mouse or keyboard.

Measurement Features:

- Measures in feet or meters.
- Calculates square footage of all or part of the plan.
- Work in three scales: 25', 50' and 150'.
- Adjustable origin point tracks your screen position.
- Adds text in three sizes.
- Adds color and patterns for emphasis.
- Cut, copy, paste and eraser function.
- Includes undo function for mistakes.
- Tags room names.

Print Features

- Prints on separate page with square footage totals.
- Prints layouts to standard graphics printers.
- Optional blueprint printing for white on black.

$14.95

System Requirements: MS or PC-DOS 3.0 or higher, 640K RAM. Hercules, CGA, EGA, VGA or graphics adapter. Hard drive or 720K, 1.2M or 1.44M floppy drive. Printers: Epson®, IBM Pro-printer®, HP Laser-Jet® series II or compatibles. Microsoft compatible mouse on COM1 optional.

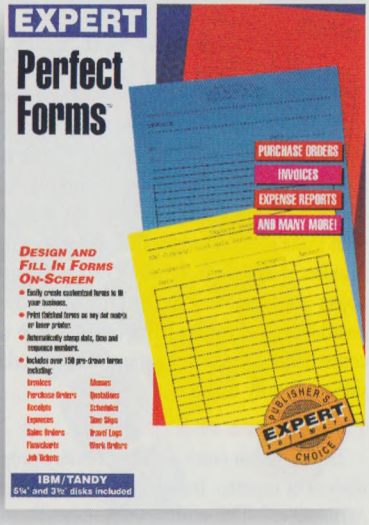
EXPERT Perfect Forms™

Generate Forms To Fit Your



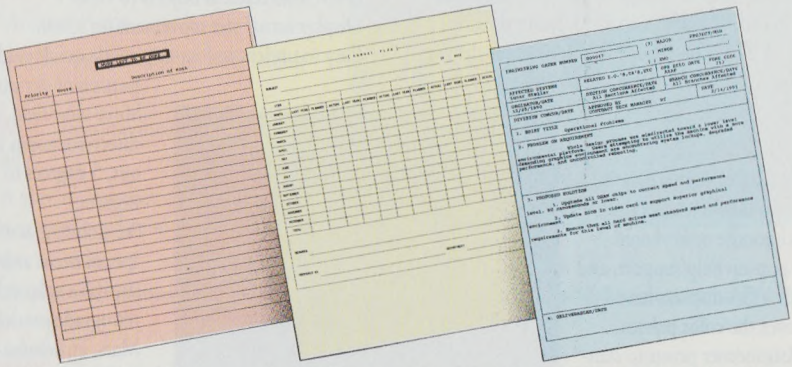
Give yourself the tools you need to design and create forms for your business and save money while doing it. In minutes you can have a variety of forms for accounting, marketing, sales, personnel or any other purpose. With Expert Perfect Forms, creating forms is easy.

150+ forms on disk

Expert Perfect Forms comes complete with over 150 pre-designed forms already on disk. You can take one of these forms and add your specifics to it, creating a tailor-made form. The 150+ forms already on disk include invoices, delivery receipts, order forms, expense sheets, inventory control forms and many more. If you don't want to adapt one of the forms for your needs, create a new one from scratch.

Easy input, sophisticated output

Create a custom form - for example, a special grid you use to chart your sales. Just select the size of the grid, draw your lines and add any text you want to complete the form, and you're ready to print.



Create useful forms easily with the **line drawing tools**. You may print a supply of forms to fill out by hand later, or fill in on screen, saving data for future use.

If your printer supports condensed mode printing, you'll fit more information on each page. You may specify custom forms sizes to match your needs.

Have your computer automatically fill in sequence and date numbers.

System Requirements: MS-DOS 2.1 or higher, 348K ram, Monochrome or color monitor. Hard disk recommended. Epson dot matrix, HP LaserJet series II and compatible printers.

EXPERT Astronomer™

View The Heavens On Your PC and Learn About the Stars.

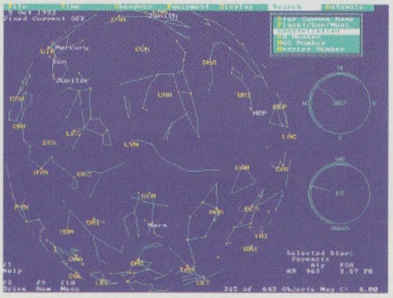
EXPERT
Astronomer
EXPLORE THE NIGHT SKY ON YOUR PC!
• Display and print the stars as they appear in your location.
• Point to any star or constellation to find its name.
• Type in a star name - Expert Astronomer finds the star for you.
• Display star movement on-screen.
• View over 9000 celestial objects.
IBM/TANDY
5¼" and 3½" disks included
PUBLISHER'S EXPERT CHOICE

Identify Stars and Constellations

Now you can turn your PC into a map of the night sky and learn about the fascinating science of Astronomy. Expert Astronomer displays the stars and planets as they appear in the local sky at night. It can even make the heavenly bodies move on screen to simulate the passage of time! Display the name of any object just by moving the cursor with mouse or keyboard, or locate from a name list. You can display constellations, print out a star chart, and take it outside to identify the stars.

For Novices or Experts

Expert Astronomer is the astronomy program for novices or experts. It includes "An Introduction to Astronomy." This written guide provides an excellent introduction to the subject. Expert Astronomer even comes with a selection of pre-drawn macros to zoom in on special cosmic events such as the 1991 solar eclipse, as seen from Mexico or your location. Experts will be able to take advantage of the more advanced features in the program, such as adjusting the drive for Sidereal, Solar, Lunar or Fixed Mount, or displaying stars of only certain magnitudes.



Easy To Use

Expert Astronomer is easy to use, with pulldown menus that work with mouse or keyboard. There is pop-up help support, and users with VGA displays have full control over the color palette. Expert Astronomer prints to standard graphics printers.

- Displays and prints the stars and planets as they appear at your location.
- Choose any star or constellation to display its name.
- Type in a star name and Expert Astronomer finds the star for you.
- Over 9000 celestial objects to view.
- Display actual star movement on screen.
- Easy to understand icons provide quick guide to portion of sky on view.
- Move view field, change direction, zoom in or out, 5 degrees to 180 degrees.
- Pre-drawn macros display special event animations such as a solar eclipse, retrograde motion of Mars, analemma and more.

$14.95

System Requirements: MS or PC-DOS 3.0 or higher, 512K RAM, CGA, EGA, VGA or Hercules display adapter. Mouse suggested but not required. Supports Epson dot matrix, HP PaintJet, HP series II compatible laser printers. Hard disk or 720K, 1.2M, 1.44M floppy drive required.

Personality EXPERT™

Learn about your personality! Dr. Expert gives you a personalized profile.

Personalized For You

Personality Expert is the fun way to learn about your personality -- as others see you and as you see yourself. Visit with our "on screen analyst," Dr. Expert, who will guide you through a series of easy personality exercises. After you select descriptive words or answer a series of questions, Dr. Expert provides you with a series of comprehensive reports -- personalized for you.

Start with a profile of your personality. Then continue to learn about lifestyle and career choices. Dr. Expert will help you check your stress level and give you tips on how to handle it. Personality Expert will also compare you with that special person in your life and generate a compatibility report.

Personality Profile Analysis

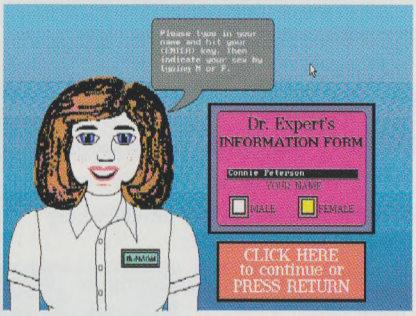
Personality Expert profiles your personality type and explores areas of your personality such as creativity, energy, enthusiasm, leadership and sociability. You can also learn how others view you.

Lifestyle and Careers

Personality Expert describe your relationships with others -- whether at home or in the office. Dr. Expert also provides hints on which careers might suit your type of personality. Whether you see yourself as a team player, a leader or a maverick, Personality Expert tells all!

Stress

Is it time to uncover those stressful areas that need to be changed? Have you forgotten how to relax? This module of Personality Expert is designed to provide a snapshot of your state of stress and suggestions on what to do to better manage stress, now and in the future.



Please type in your name and hit your [ENTER] key. Then indicate your sex by typing M or F.

Lottery EXPERT™

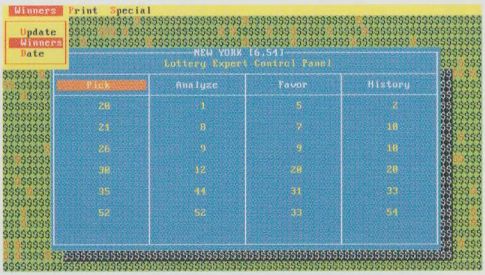
LATEST GAMES & NUMBERS!

Includes Your State's Past Winning Numbers!

Improve the Odds With Your Own System

Playing with a system could improve the odds of you winning your state lottery jackpot. Now you can make your own system, with Lottery Expert. Do you want to find the "hot" or "due" numbers? Do you already have numbers you play consistently? Do you want random numbers to mimic the way in which actual numbers are picked? Lottery Expert does it all; you can even combine all three approaches.

Lottery Expert lets you check its built-in database to zero in on the numbers which haven't been picked recently, and which are "due". The program's powerful reporting capabilities can help you analyze past winners, spot trends and identify "hot" numbers so you can improve your chances of a big payoff. Or take the numbers you like to play and check them against the index to see how they've done. You can have Lottery Expert select a game card for you, with "due" numbers, the ones you like to play, random numbers, or a combination of all three.



Lottery Expert comes complete with a database of all lottery states' past winning numbers plus Northeast Tri-State, PowerBall and Canadian Lotteries.

Analyze past winners. Spot trends and identify "hot" numbers to improve chances for a big payoff. Winners history shows you how the past winning numbers are distributed.

Easy To Use and Fun!

- A special "Control Panel" allows you to see your most recent picks, favorite numbers, last six numbers analyzed, and the last "group" analyzed.
- Database for all lottery states.
- Easy to update winning picks.
- Random number generator picks "unbiased" numbers.
- Evaluates "favorite" or "lucky" numbers.
- Easy to use "Control Panel" interface allows user to see last picks, favorite numbers at a glance.
- Play any state's 3- and 4-number games.

$14.95

System Requirements: MS or PC-DOS 3.0 or higher, 512K RAM, monochrome or color. Hard disk or 720K, 1.2M, or 1.44M floppy drive required. Epson dot matrix and HP series II compatible laser printers.

EXPERT Résumé Writer™

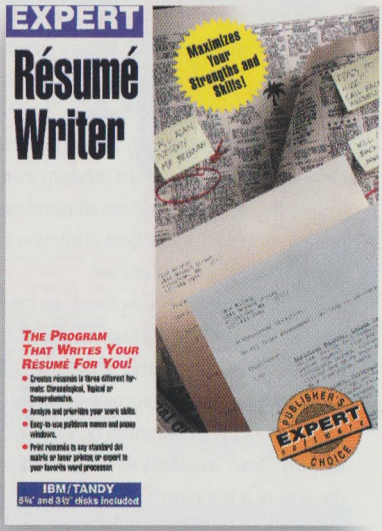
Writes your winning résumé for you... in just minutes!

For so many of us, writing a job résumé is a chore we really dread. As we stare at a blank page and wonder where to start, we'd like to have an expert's help.

Expert Résumé Writer is the answer – it actually writes your résumé for you! You merely input one sentence descriptions prompted by the Expert, then choose a résumé style that best suits your needs, and Expert Résumé Writer does all the rest!

Expert Résumé Writer maximizes your strengths and skills by making you analyze and prioritize every aspect of your past career. Then it builds paragraphs of your job history, task by task, to create a winning résumé in no time.

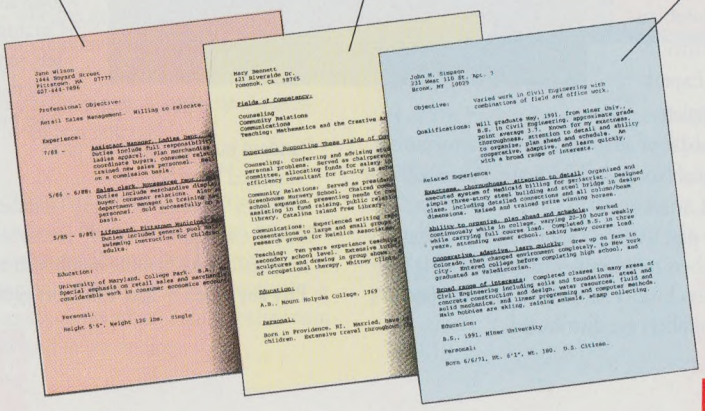
You can save variations of your résumé for different prospective employers – your career information stays the same from format to format.



EXPERT
Résumé Writer
Maximizes Your Strengths and Skills!
THE PROGRAM THAT WRITES YOUR RÉSUMÉ FOR YOU!
Creates résumés in three different formats: Chronological, Topical or Comprehensive.
Analyze and prioritize your work skills.
Easy-to-use pulldown menus and popup windows.
Print résumés to any standard dot matrix or laser printer or export to your favorite word processor.
IBM/TANDY
5¼" and 3½" disks included
PUBLISHER'S EXPERT CHOICE

Choose a résumé that best suits your needs:

- **Chronological résumé** -- *the standard format, listing most recent jobs first. Best for people with usual work histories.*
- **Topical résumé** -- *lists work history by areas of experience. Good for those with a varied work history as well as career changes.*
- **Comprehensive résumé** -- *organizes strengths and skills. Excellent for those with wide interests but little work experience.*



System Requirements: DOS 2.11 or higher, 512K RAM, Color or monochrome monitors. Supports dot matrix, DeskJet and other laser printers.

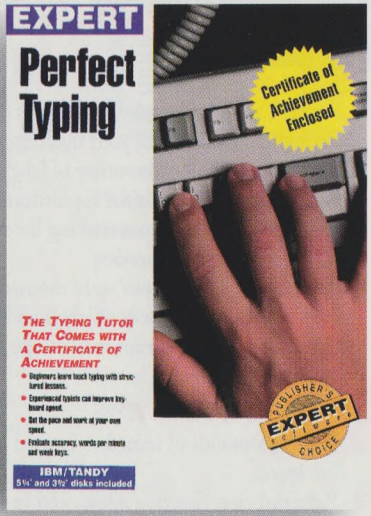
EXPERT

Perfect Typing™

The Typing Tutor that comes with a Certificate of Achievement!



Perfect Typing is a tutorial program that will help you learn to type. The program will give you structured practice to learn touch typing and improve typing speed.

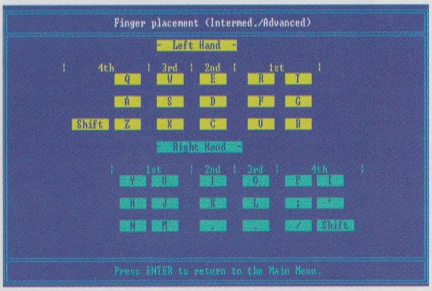
Plus, Perfect Typing comes with two Certificate of Achievement Awards, printed on high-quality parchment paper that you can present to employers to show that you are a Perfect Typist.

Perfect Typing a self-paced typing instruction program that will help you to learn to type quickly and accurately.

For beginners who are just learning to type, Perfect Typing lets you set your own pace and provides a series of progressive lessons like finger exercises. No more pecking around the keyboard with one or two fingers.

For Beginners

If you are just starting to type, you can set your own pace as you go through a series of progressive lessons.



Perfect Typing has finger exercises to build up your ability to type accurately. And you'll learn where all the keys are so you don't have to "hunt and peck" around the keyboard as you type.

For Experienced Typists

If you are an experienced typist, you can improve your typing speed, using the advanced lessons. You can evaluate your progress so you can concentrate your learning efforts towards brushing up on weaknesses. Perfect Typing is challenging to use because you set the pace and work at your own speed.

And the program provides you with the important foundation you need to be a good typist. Whether you use a typewriter or a computer, these are skills you'll always be able to use.

Certificate of Achievement

Perfect Typing also comes with a Certificate of Achievement Award, printed on high quality parchment paper, that you can show your present or potential employers.

EXPERT Personal Roots™

Quick and easy way to trace your family's history.

Family tree detective kit

Personal Roots makes genealogy easy. Trace your family's history and organize the information to keep track of past generations.

The program helps you tie together relationships and automatically creates the links between parents and children.

You will uncover fascinating facts about your ancestry as you trace your family history using Personal Roots.

Family history

Personal Roots prints out family history worksheets you can use to collect data: Four-generation ancestor chart; Chart of descendants; Birthday lists; Longevity; Wedding anniversaries and more.

Bonus workbook

A genealogy workbook, written by a professional genealogist, is included. It provides an introduction to tracking family history, hints for organizing data and tips for finding information.

$14.95

System Requirements: DOS 2.11 or higher, 512K ram, hard disk recommended; color or monochrome monitor.

EXPERT Will™

Prepares a legal Last Will and Testament

A Last Will and Testament is a key document your family and friends will need to help settle your estate. Don't leave your family stranded, possibly costing them great expense, by not having a will prepared. With Expert Will, you can prepare a legally binding Last Will and Testament on your PC, in the privacy of your home or office. Avoid the chaos, confusion, legal and tax problems your loved ones will face if you leave them without a will.

The process is simple and straightforward. Just provide the answers to the questions on your screen and Expert Will does the rest. Your will is written in the correct legal language with all the information inserted in its correct and legal place in the document.

Don't let your family and friends face an arbitrary estate distribution by the courts. It's simple and easy – just run the program and answer the questions.

$14.95
